Ibrahim Binbuga

Full-Stack Software Engineer — iOS, Flutter, .NET, React

Mersin (Open to relocate), Turkiye • +90 506 134 2283 • ibrahimbinbugaa@gmail.com • Personal Website • GitHub

PROFILE

Full-stack software engineer specializing in iOS (Swift/SwiftUI) and Flutter, with apps published on both the App Store and Google Play and end-to-end experience across React frontends, FastAPI/ASP.NET backends, and Firebase/Supabase data layers. Software Engineering graduate from Mugla Sitki Kocman University with hands-on delivery experience across an indie studio, a corporate internship, and international project-based work.

WORK EXPERIENCE

Jan 2026 – Present

Software Engineer, IF22 Software · Mugla

- Shipped four consumer apps on the App Store and Google Play in a two-person team.
- Integrated each app with distinct backend and database systems using Go, Firebase, and Supabase.
- Managed App Store signing, metadata, submission, and post-launch monitoring.

Jul 2025 – Aug 2025

Software Engineer Intern, Virtus R&D Software Inc. · Mugla

- Designed a reusable UI component library adopted across all screens by a 10-person team.
- Replaced ad hoc state handling with Riverpod for a predictable, testable architecture.
- Connected the app to RESTful APIs, enabling dynamic, real-time content.

Dec 2024 – Apr 2025

Software Engineer — Project-based, Software Malta · Malta

- Delivered a Flutter forum chat app with posting, replies, messaging, notifications, and authentication.
- Implemented secure OAuth authentication with Firebase, session persistence, and token refresh.
- Translated the client's design system into pixel-accurate custom Flutter widgets.

Jul 2024 – Aug 2024

Software Engineer Intern, Mersin International Port (MIP) · Mersin

- Built and maintained an ASP.NET MVC demo app to practice C# development.
- Designed and managed an MSSQL employee database for structured HR record-keeping.
- Applied MVC, Entity Framework, and Dependency Injection for modular, testable code.

EDUCATION

Sep 2021 – Jun 2026

Bachelor of Science in Software Engineering, Mugla Sitki Kocman University, Faculty of Engineering · Mugla

- Relevant coursework: Algorithms and Data Structures; Software Design Patterns; Database Systems; Software Project Management; System and Network Programming; Introduction to Machine Learning; Mobile Application Development; Information Security; Software Testing; Fundamentals of Programming Languages; Software Architectures; Artificial Intelligence; Data Science and Engineering; Human–Computer Interaction; Server-Side Programming.
- GPA: 3.49 / 4.00

Sep 2016 – Jun 2021

High School Diploma, Icel Anatolian High School
Grade average: 86 / 100

PROJECTS

Oct 2025 – May 2026

SafetyWatch AI (Senior Project)
Real-time workplace safety monitoring platform detecting PPE violations and worker falls using YOLOv11 computer vision. Technologies: Flutter, React 19, FastAPI, PostgreSQL, WebSocket, Firebase Cloud Messaging, Docker.

- Built a cross-platform Flutter app with real-time push notifications, violation tracking, and role-based access control.
- Developed a React 19 web dashboard for live camera management, model-camera assignment, and violation review, with exportable PDF/CSV/Excel reports.
- Implemented a multi-tenant FastAPI backend with an async violation-processing queue, WebSocket live streaming, and YOLO inference integration.
- Wrote 93 unit tests across web and mobile covering auth flows, API interceptors, and CRUD operations (Vitest, React Testing Library, MSW).
- Deployed the containerized system on Render.com and Vercel with multi-company data isolation.

2025

Emotions of Drawings
Deep learning project analyzing emotional cues in children's drawings. Technologies: React, Flask, Deep Learning.

2024

Drugger Detection
Facial-recognition project using self-developed deep learning models; led the team. Technologies: Flutter, Documentation.

2024

Meeting Analyzer
Analyzes meeting participants' emotional states, extracts transcripts, and summarizes them. Technologies: FastAPI, React, SQLite, ML.

SKILLS

Mobile	Flutter • SwiftUI • Riverpod • StoreKit 2 • WidgetKit
Frontend	React • React 19
Backend	FastAPI • ASP.NET MVC
Data & Cloud	PostgreSQL • MSSQL • SQLite • Firebase • Supabase • Docker • Render • Vercel
Testing	Vitest • React Testing Library • MSW
Other	RESTful APIs • WebSocket • OAuth • YOLOv11 • Agile/Scrum
Other	Swift • Dart • Go • C# • Python

LANGUAGES

Turkish	Native speaker	Spanish	Basic
English	Advanced
